

Wolfpack Agency

Complete Infrastructure & Cost Report

Full cost breakdown for Wolfpack Apex (team platform)
and Wolfpack Auto (dealer platform) in production.

Prepared for: Hoxsie, CEO

Prepared by: Nick Homyk, CTO

Date: April 6, 2026

Executive Summary

This report covers the complete infrastructure costs for both Wolfpack products:

- **Wolfpack Apex** — Team intelligence platform (assistant, knowledge base, reports, analytics)
- **Wolfpack Auto** — Dealer management platform (inventory, leads, F&I, payments, payroll)

\$125 - \$165/mo

Total monthly cost for both platforms combined

\$125-135

Wolfpack Apex (monthly)

\$0-30

Wolfpack Auto (monthly)

\$1,500-1,980

Combined annual estimate

Key takeaway: Wolfpack Auto runs almost entirely on free tiers. The only variable costs are transaction-based (Stripe processing fees, SMS, image processing) and only incur charges when the platform is actively generating revenue.

Wolfpack Apex — Team Intelligence Platform

AI-powered workspace for the entire Wolfpack team (5 members): assistant, knowledge base, reports, discussions, feature requests, journal, client management, email templates, and analytics.

Monthly Costs

SERVICE	PURPOSE	PLAN	MONTHLY	ANNUAL
Claude Max	Nick's development tool (IDE, Claude Code)	Max 5x Personal	\$100.00	\$1,200.00
Claude API	Wolfpack Assistant for all 5 team members	Pay-as-you-go	\$5 - \$15	\$60 - \$180
Vercel	Hosting (wolfpack-apex.vercel.app)	Hobby (Free)	\$0.00	\$0.00
Neon PostgreSQL	Primary database	Free	\$0.00	\$0.00
Qdrant Cloud	Vector search for knowledge matching	Free	\$0.00	\$0.00
Neo4j AuraDB	Knowledge relationship graph	Free	\$0.00	\$0.00
Resend	Email notifications (3,000/mo)	Free	\$0.00	\$0.00
Sentry	Error monitoring	Free	\$0.00	\$0.00
Apex Subtotal			\$105 - \$115	\$1,260 - \$1,380

Wolfpack Auto — Dealer Management Platform

Full dealer operations platform: inventory management, lead tracking, F&I, payments, payroll, compliance, analytics, and customer-facing dealer websites.

Fixed Monthly Costs (Always On)

SERVICE	PURPOSE	PLAN	MONTHLY	ANNUAL
Vercel	Hosting dealer platform	Hobby (Free)	\$0.00	\$0.00
Neon PostgreSQL	Dealer data, leads, vehicles, deals, payroll	Free	\$0.00	\$0.00
Cloudflare R2	Vehicle images and media storage	Free (10GB/mo)	\$0.00	\$0.00
Qdrant Cloud	Semantic vehicle search (optional)	Free	\$0.00	\$0.00
Neo4j AuraDB	Customer journey and relationship tracking	Free	\$0.00	\$0.00
Resend	Lead notifications, invoices (3,000/mo)	Free	\$0.00	\$0.00
Sentry	Error monitoring	Free	\$0.00	\$0.00
Google Maps	Dealer location maps	Free (\$200/mo credit)	\$0.00	\$0.00
NHTSA API	VIN decoding	Free (federal)	\$0.00	\$0.00
Let's Encrypt	SSL certificates	Free	\$0.00	\$0.00
NextAuth.js	Authentication	Free (open source)	\$0.00	\$0.00
OFAC/Treasury	Sanctions compliance screening	Free (federal)	\$0.00	\$0.00
Fixed Costs Subtotal			\$0.00	\$0.00

Variable Costs (Usage-Based, Only When Active)

SERVICE	PURPOSE	PRICING	EST. MONTHLY	EST. ANNUAL
Stripe	Payment processing (dealer payouts, subscriptions)	2.9% + \$0.30/txn	Varies*	Varies*
Twilio	SMS lead outreach	\$0.0079/SMS	\$5 - \$15	\$60 - \$180

FAL.ai	AI background removal on vehicle photos	Pay-per-use	\$1 - \$5	\$12 - \$60
OpenAI	Text embeddings for search (optional)	\$0.02/1M tokens	\$0 - \$2	\$0 - \$24
Variable Costs Subtotal (est.)			\$0 - \$30	\$0 - \$360

***Stripe fees:** Stripe only charges when transactions occur. There is no monthly fee. For example, processing \$10,000/month in dealer payments would cost approximately \$320 in Stripe fees (2.9% + \$0.30 per transaction). These fees are typically passed through to the dealer or customer.

Optional Services (Not Required for Launch)

SERVICE	PURPOSE	WHEN NEEDED	COST IF ADDED
Redis (Upstash)	Caching and session storage	High traffic (1,000+ daily users)	Free - \$10/mo
Elasticsearch	Advanced full-text inventory search	1,000+ vehicles	\$16 - \$95/mo
Plausible Analytics	Privacy-friendly web analytics	If Google Analytics not preferred	\$9/mo
Gusto	Payroll processing integration	If dealer needs managed payroll	\$40+/mo
Replicate / Remove.bg	Backup image processing	Fallback for FAL.ai	\$0 - \$5/mo
Canva API	Marketing template editor	If dealer wants marketing tools	\$0 (free tier)

Combined Monthly & Annual Totals

CATEGORY	MONTHLY	ANNUAL
Wolfpack Apex (Team Platform)		
Claude Max (Nick's development)	\$100.00	\$1,200.00
Claude API (Team assistant)	\$5 - \$15	\$60 - \$180
Databases, hosting, email, monitoring	\$0.00	\$0.00
Wolfpack Auto (Dealer Platform)		
All fixed infrastructure	\$0.00	\$0.00
Twilio SMS (estimated)	\$5 - \$15	\$60 - \$180
FAL.ai image processing (estimated)	\$1 - \$5	\$12 - \$60
OpenAI embeddings (estimated)	\$0 - \$2	\$0 - \$24
Stripe (transaction fees, pass-through)	Varies	Varies
Grand Total (excl. Stripe pass-through)	\$111 - \$137	\$1,332 - \$1,644

~\$125/mo

Realistic monthly cost to run both platforms in production

18 of 23 services run on free tiers. Variable costs (SMS, image processing, embeddings) only increase when the platforms are actively generating value. Stripe fees are pass-through costs covered by transaction revenue.

When Costs Would Increase

TRIGGER	WHAT CHANGES	ADDED COST
Database exceeds 0.5 GB (either platform)	Upgrade Neon to Launch	+\$19/mo
Over 3,000 emails/month	Upgrade Resend to Pro	+\$20/mo
Custom email domain (@thewolfpack.agency)	Resend Pro	+\$20/mo

1,000+ vehicles in inventory	Elasticsearch for advanced search	+\$16-95/mo
High site traffic (1,000+ daily)	Vercel Pro + Redis	+\$20-30/mo
Managed payroll for dealers	Gusto integration	+\$40+/mo

None of these are expected at launch or in the near term.

Steps to Go Live

Wolfpack Apex

- 1 Set environment variables in Vercel (API keys, database URLs)
- 2 Run database migrations (one command)
- 3 Create production accounts for each team member

Wolfpack Auto

- 1 Set environment variables in Vercel (database, Stripe, Resend, Twilio)
- 2 Run database migrations
- 3 Create production admin user and first dealer account
- 4 Import initial vehicle inventory

Estimated time to production: under 2 hours for both platforms.
